

*The Outpatient Infusion Clinic is a service that allows patients to have procedures and therapies whether one-time or ongoing as an outpatient. This is a cost-effective alternative for the patient, decreases wait-time for the therapy and can shorten inpatient hospital admissions. Visit our web site: [www.claycountyhospital.org](http://www.claycountyhospital.org)*

**Outpatient Infusion Clinic**  
Monday 7am - 9pm and  
weekends 8am - 4pm

**Clay County Hospital**  
911 Stacy Burk Drive, Flora, IL  
618-662-2131

# Clay County Hospital Outpatient Infusion Clinic

Services that can be provided in the Outpatient Infusion Clinic include, but are not be limited to:

- Intravenous Hydration
- Intravenous Therapy, such as Antibiotics
- Intravenous Push Medications
- Intramuscular & Subcutaneous Injections
- Administration of Blood & Blood Products
- Lab Draw From Implanted Port
- Routine Flush of Implanted Ports, Central Lines, PICC Lines
- Bladder Scan

Urinary Catheterization or Catheter Change

- Dressing Changes
- Suture or Staple Removal
- Drain Removal
- Splint Applications
- Crutch Training
- PICC Line Insertions

***We can assist with:***

- Lumbar Puncture
- Paracentesis
- Thoracentesis

***A written physician order with a diagnosis is required for any of these procedures.***

***The provider's office must make the initial appointment prior to sending a patient for outpatient therapy of any kind. This allows for proper scheduling and a decrease in the wait-time for patients receiving therapy.***

***Some therapies can take two hours or longer so it is important to keep your appointment.***
